---

Within the installer you will find a wide collection of languages. The installer currently supports the following languages: Arabic, Bulgarian, Bengali, Czech, Danish, German, Greek, English, Spanish, Finnish, French, Hebrew, Devanagari(India), Croatian(Croatia), Magyar (Hungary), Italian, Malay, Norwegian bokmal, Dutch, Portuguese(Brasil), Portugues(Portugal), Romanian, Russian, Serbian, Svenska, Thai and more are being added.

By default the English language is installed for the back and front-ends. You can download the language files from the Joomla! extensions site. In addition some translation teams are offering fully localised versions of the entire package. Please check the [Joomla! help site for links](#) to locations where languages and localised versions can be found.
